Wednesday, Nov - 18th, 2026

10:00-11:00		**Cardiothoracic and Airway Anesthesia Neuroanesthesia and Perioperative Care** **Moderator: Aeyal Raz**
	>	**Refractory Cardiac Arrest Following Sugammadex in a Heart Transplant Recipient** **Anastasia Rogozina**
	>	**Management of Acute Bronchial Rupture Following DLT Placement in Emergency Thoracic Surgery** **Yoav Levy**
	>	**Prehospital Intraosseous Access in Combat Trauma: A Retrospective Registry Analysis** **Ofer Almog**
	>	**Anesthesia for TMJ Ankylosis Utilizing Patient-Specific 3D-Printed Airway Models: A Case Series** **Dan Shamir**
	>	**Unanticipated difficult laryngoscopy from a presumed laryngeal mass during retrograde intrarenal surgery: rescue with video laryngoscopy and a bougie, and a normal same-day ENT examination** **David Simon Rubin**
	>	**From Obstetric Hemorrhage to Complex Spine Surgery: Implementing Quantitative Blood Loss Measurement to Improve Intraoperative Situational Awareness and Patient Outcomes** **Jerome Lax**
	>	**Anesthetic Management of a Patient with Previous Reversible Cerebral Vasoconstriction Syndrome (RCVS) Complicated by Ischemic Stroke Undergoing Bilateral Breast Reconstruction** **Yosef Sisay**
	>	**Anesthetic management of a patient with a kinked endotracheal tube** **Nathalie Abitbol**

Wednesday, Nov - 18th, 2026

10:00-11:00		**Cardiothoracic and Airway Anesthesia Neuroanesthesia and Perioperative Care continued** **Moderator: Dana Baron Shahaf**
	>	**Is It Just A Headache? Or Something More Sinister? Disseminated Cryptococcus in a Newly Diagnosed HIV/AIDS Patient** **Jordan Miller**
	>	**Intracranial Hemorrhage as a Complication of Elective Spinal Surgery** **Jordan Miller**
	>	**Paradoxical Air Embolism Following Arterial Line Air Entry in a Patient With a Patent Foramen Ovale: A Case Report of Emergent Hyperbaric Oxygen Therapy** **Jordan Miller**
	>	**Postoperative delirium among older adults undergoing neck of femur fracture surgery: a prospective observational study** **Jessica Theodorie**
	>	**Preoperative geriatric vulnerability and in-hospital length of stay following hip fracture surgery in older adults: a prospective observational study** **Tamara Dvalashvili**
	>	**Functional decline among older adults after neck of femur fracture surgery - a prospective observational study** **Eytan Gozal**
	>	**Emergent Fasciotomy Before Coronary Artery Bypass Grafting: Anesthetic Management. A Case Report** **Yonat Letzter**
	>	**A slow-release liposomal-bupivacaine formulation for prolonged analgesia: reduced toxicity and increased efficacy in animal models** **Yael Shilo-Benajmini**
	>	**Anesthetic Management of Pregnant Patients with Preeclampsia Undergoing Cesarean Delivery: An International Multicenter Retrospective Study** **Ilia Kholod**
	>	**Paired Cytokine Profiles in Amniotic Fluid Embolism With and Without Early Anti-Inflammatory Therapy** **Barbara Orlando**

Wednesday, Nov - 18th, 2026

11:15-12:30		**Anesthesia Education and Perioperative Safety** **Moderator: Shiri Zarour**
	>	**A Single Integrated Platform for Anesthesia Residency Documentation: A Ten-Week Implementation Study** Yehonatan Solomonov
	>	**Bridging Anaesthesia Care Gaps in LMICs: Myths, Dogmas and Practical Routes to Safe Equitable Care** Beltus Abongha Gobti
	>	**From Clinical Exposure to Personalized Learning: A Digital Platform for Anesthesiology Residency Education** Shira Pelleh Libman
	>	**From Fragmented Local Resources to Streamlined National Engagement: Rapid Uptake of a Textbook-Grounded LLM Question Platform for Anesthesia Board Examination Preparation** Yonatan Khalatnik
	>	**Perioperative Disclosure of GLP-1/GIP Receptor Agonist Therapy and Its Association with Pulmonary Aspiration and Anesthetic Complications: A Retrospective Cohort Study** Abu Ras Omar
	>	**Perioperative GLP-1 Receptor Agonist Use and Survival After Major Cancer Surgery: A Propensity-Matched Cohort Study** Shir Bulis
	>	**Portable Vaporizers and Anesthesia Machines** Alexander Berlin
	>	**Hemodynamic Stability of Surgical Peripheral Nerve Block in Below-Knee Orthopedic Surgery** Nimrod Shani

Wednesday, Nov - 18th, 2026

14:15-15:45		**Obstetric Anesthesia** **Moderator: Vered Dvir**
	>	**Mistaken for Anaphylaxis: A Diagnostic Mystery During Caesarean Section Under Spinal Anaesthesia** **Olga Fadeeva**
	>	**Association between opiate use disorder and physician provided epidural boluses for labor analgesia** **Amnon Asher Berger**
	>	**Improving postpartum hemorrhage risk prediction: integration of anesthesia factors** **Amnon Asher Berger**
	>	**Prophylactic Carbetocin Versus Prophylactic Oxytocin Among Women at Risk for Postpartum Hemorrhage Undergoing Cesarean Delivery** **Daniel Hikry**
	>	**Neuraxial Anesthesia for Cesarean Delivery in Patient With Severe Pulmonary Arterial Hypertension with Right Ventricular Dysfunction and Right-to-Left Shunting: A Case Report** **Yahya Aljuba**
	>	**Effect of Low Dose Epidural Morphine on Post-Cesarean Acute Pain and Adverse effects in non-elective surgery: A Comparison of 0, 1.5 and 2.5 mg Epidural Morphine** **Jawad Matanis**
	>	**Comparison of Manual Placenta Removal Completed in the Delivery Room Versus Unplanned Transfer to the Operating Room: Identification of Risk Factors** **Orie Sella**

Wednesday, Nov - 18th, 2026

16:15-17:15		**Intensive Care** **Moderator: Haim Birkenstadt**
	>	**Post-Discharge Geographic Mortality Inequities After Emergency Surgery in Nonagenarians Within a Universal Health System: An ICU Cohort from Australia and New Zealand** Jacob Zand
	>	**Levothyroxine administration in ICU patients with low T4 levels: a retrospective comparison study** Sara Dichtwald
	>	**The influence of Chest CT vs. chest x-ray on the management of critically ill patients: A retrospective study** Stanislav Levintas
	>	**Does the Systematic Use of the Rapid Ultrasound in Shock Protocol Alter Patient Management in the Intensive Care Unit? A Retrospective Study** Avraham Meyer
	>	**Patients Refused Admission to the Intensive Care Unit: Clinical Characteristics and Outcomes. A Retrospective Study** Sara Dichtwald
	>	**Prognostic factors in patients admitted for severe exacerbations of chronic obstructive pulmonary disease** Bar Lahmi
	>	**Empiric antibiotic therapy for patients with sepsis in the intensive care unit: appropriateness and clinical outcomes** Maha Salama
	>	**Sugammadex Eliminates Need for Brain CT Scan in Case of Pupillary Dilation - A Case Report** Yaara Giladi

Wednesday, Nov - 18th, 2026

16:15-17:15		**Intensive Care** **continued** **Moderator: Haim Birkenstadt**
	>	**A novel treatment approach for cold agglutinin induced acute hemolytic anemia: a case report** **Sara Dichtwald**
	>	**Rate of Venous Thrombosis After Central Venous Catheter Removal: A Retrospective Study** **Anat Bar-Lavie**
	>	**Impact of computed tomography scans on intensive care unit patients: A retrospective study** **Elad Gross**
	>	**Gastroparesis as an Early Marker for Sepsis Development: A Retrospective Study** **Avraham Meyer**
	>	**Gastric Ultrasound versus Aspiration for Gastric Residual Volume Monitoring: Effect on Time to Caloric Goal in Mechanically Ventilated ICU Patients - A Retrospective Cohort Study** **Sasha Rothschild**
	>	**The physiologic effect of the flow generated by high flow nasal cannula in mild respiratory failure, a prospective study** **Sara Sermoneta**
	>	**Patients ventilated for airway protection in the intensive care unit and timing of tracheostomy: a retrospective study** **Avraham Meyer**
	>	**Secondary Sclerosing Cholangitis in a Critically Ill Patient vs Ketamine-Induced Liver Injury: A Diagnostic Challenge** **Donna Ron**

Thursday, Nov - 19th, 2026

15:00-16:30		**Regional and Pain Management Pediatric and Obstetric Anesthesia** **Moderator: Erez Dvir**
	>	"Do Pain Perception and Sociocultural Factors Influence Patients' Choice of Local Anesthesia Versus Moderate Sedation in Interventional Radiology?" Mahmod Hamdan
	>	Making the Impossible Epidural Possible : CT-Based 3D Planning for Complex Thoracic Epidural Itay Omer
	>	The Effects of Postoperative Pain on Postoperative Infectious Complications Yoav Charpak-Amikam
	>	Intrathecal morphine in combined spinal-general anesthesia for laparoscopic hysterectomy: a retrospective cohort study Yair Binyamin
	>	Targeting Peripheral Sodium Channel for Acute Postoperative Pain: Suzetrigine as a Novel Non-Opioid Analgesic. Ahmed Touqan
	>	Music-Based Self-Relaxation Web-application (MUSIC-CARE) Versus Patient-Selected Music from playlist During Forearm Orthopedic Surgery Under Regional Anesthesia Gilles Boccara
	>	Which block, for which operation? Three promises of regional anaesthesia for oncological breast surgery, and what the evidence supports David Simon Rubin
	>	Anesthesia Management for Combined Gastroscopy and Bronchoscopy in a Child with Gillespie Syndrome: A Case Report Adham Fawarseh
	>	Behavioral Changes in Children Aged 2-12 Years After Elective Surgery Under General Anesthesia: Interim Report of A Prospective Observational Study Daniel Vyuk
	>	Anesthetic management in pregnant women with Fontan circulation: a single-center retrospective study (2011-2026) Yahya Aljuba
	>	Silent megaesophagus following adjustable gastric banding: an occult aspiration risk Reut Schvartz

Thursday, Nov - 19th, 2026

15:00-16:30		**General Anesthesia and Perioperative Outcomes** **Session continued** **Moderator: Erez Dvir**
	>	**Reduction of Anaesthesiologists' Sevoflurane Exposure during Paediatric Mask Induction with an Additional Scavenger: A Randomized Study** Jalaa Hossein
	>	**Determinants of Postoperative Outcomes Following Non-Traumatic Emergency Laparotomy: A Two-Year Retrospective Cohort Study** Maher Skakia
	>	**Intraoperative changes in the airway opening pressure and pulmonary complications** Zoriana Melnychuk
	>	**Modeling Optimal Laboratory Testing in the Perioperative Setting** Amy Fox
	>	**Artificial Intelligence Smartphone Airway Assessment: Prospective Agreement with Conventional Anesthesiologist Evaluation. A Pilot Study** Yehoshua Wexler
	>	**Postoperative pain management after the new bariatric technique using endoscopic sleeve gastroplasty: An observational study of 100 cases** Gilles Boccara
	>	**Management and Prevention of an Intraoperative Fall off a Hana Table While Under General Anesthesia** Nathalie Abitbol
	>	**Norepinephrine-Midazolam Medication Errors in Anesthesia: A Six-Case Analysis of System Vulnerabilities and Opportunities for Prevention** Nitzan Shmueli
	>	**Neutrophil Gelatinase-Associated Lipocalin (NGAL) Levels in Patients Undergoing Surgery with Pneumoperitoneum in Trendelenburg Position** Adir Ben Nachum
	>	**Endocannabinoids as Early Predictors of Acute Kidney Injury in Patients Undergoing Laparoscopic/Robotic Surgery in Trendelenburg Position** Daniel Jaber
	>	**Delayed Anesthesia Emergence due to Contrast-Induced Encephalopathy from Iohexol: A Case Report** Maya Shina
	>	**Toward Bedside Sedation Monitoring in ICU: Concordance Between Readily Available EEG Parameters and RASS - A Pilot Study** Shadi Khateeb

Wednesday, Nov - 18th, 2026

14:15 **Hall A**		**Best Abstracts** **Moderator: Dana Shahaf-Baron**
	>	**Reconsidering Chest Decompression in Prehospital Trauma: From Registry Evidence to Guideline Change** **Ofer Almog**
	>	**Risk Factors for Postoperative Stroke and TIA After LVAD Implantation: A Single-Center Retrospective Cohort Study** **Yael Becher**
	>	**Monitoring attention across the perioperative period using Single - Channel EEG - based Marker** **Olga Reznik**
